Notes

- ¹ These import figures tend to be overstated from the USA and understated from other countries, due to the shipment of Cayman Islands bound imports through Florida.
- ² Most of the oil imported from Curacao originates from Venezuela, although some comes from elsewhere (eg. Trinidad and Tobago).
- ³ From 1999 - 2002 the figures for other countries were taken from the customs database and is overstated due to a misclassification of country codes.
