

### 3.1.12 Status

A resident is either a Caymanian or non-Caymanian.

Caymanians are by birth or by status. Persons who have naturalization but are not Caymanians by status are considered non-Caymanians.

Non-Caymanians are comprised of residents with work permits or government contracts and their spouses and children; permanent residents with and without rights to work; persons with student visa; asylum holders/seekers and other categories.

### 3.1.13 Status ratio

This refers to the number of non-Caymanians per 100 Caymanians.

### 3.1.14 Tabular population

This refers to the total number of residents who were interviewed and includes those whose response was “Don’t Know/Not Stated” (DK/NS).

This is not necessarily equal to the headcount population as some residents were counted based on information from neighbours or landlords but were not interviewed and are therefore excluded from the tabular population.

## 3.2 Explanatory notes to the census tables

---

The attached 2010 Census tables contain information from households who were interviewed during the Census period October 10, 2010 to December 16, 2010.

The total population in most of these tables do not add up to the total non-institutional headcount population (55,036). Some residents were confirmed to be residents (have stayed on Island for at least six months and have intentions to stay on Island) based on information from neighbours and/or landlords. However, no interviews with them were conducted due to lack of contact despite at least four attempts by enumerators/interviewers. Hence, the total population in most of these tables is 53,834.

Some tables present multiple responses (disability and illness) or dual responses (citizenship) hence they sum up to more than the population count.

All figures are rounded up to the nearest decimal place. DK/NS are responses “Don’t Know/Not Stated.”

For better understanding of the information, you may refer to the census questionnaire attached as Appendix 1.
