## THE CAYMAN ISLANDS' CONSUMER PRICE INDEX REPORT: SEPTEMBER 2014

(Date of release: November 2014)

## CPI Increased by 1.5\% in the Third Quarter

The overall Consumer Price Index (CPI) in the third quarter of 2014 was 105.2, higher by 1.5 percent when compared to the same quarter in 2013. A comparison with the previous quarter ending June 2014 indicates an increase of 0.2 percent.

Figure 1: Inflation Rates (Sept 2010 - Sept 2014)
(\% Change in CPI of Current Quarter over Same Quarter a Year Ago)

## Annual changes: September 2014 over September 2013

The overall 1.5 percent increase in September 2014 in comparison to September 2013 is mainly due to increases in the following divisions:

- Household equipment and routine maintenance: the index for this division increased by 7.8 percent. This upward movement was largely the result of higher prices for household textiles ( $14.2 \%$ ); glassware, tableware and household utensils ( $5.1 \%$ ) and goods and services for routine household maintenance (9.4\%). Among the contributors to latter were increases in the costs of residential housework, baby-sitting, and fumigation services.
- Transport: there was an increase of 2.6 percent due to changes in the average cost of transport services ( $6.8 \%$ ) which includes vehicle fuel and airfares for a variety of routes, and the purchase cost of vehicles (4.4\%).
- Food and non-alcoholic beverages: this index rose by 2.1 percent as the average cost of items in most groups increased, led by fish and seafood ( $5.7 \%$ ) followed by meat and meat products ( $5.4 \%$ ); milk, cheese and egg ( $5.1 \%$ ); bread and cereals ( $4.0 \%$ ) and fruits (3.9). Price declines were posted for vegetables; oils and fats; and mineral water, soft drinks, fruit and vegetables juices.
- Recreation and culture: the division inflation rate is recorded at 1.6 percent, coming mainly from recreational and cultural services (5.6\%) as well as other major durables (1.2\%). Three groups recorded declines: newspapers, books and stationery ( $-4.7 \%$ ), other recreational items and equipment, gardens, and pets ( $-0.7 \%$ ) and audio-visual, photographic and information processing equipment ( $-0.4 \%$ ).
- Housing and utilities: the price index registered an increase of $\mathbf{1 . 4}$ percent year on year. Actual rentals averaged higher by 3.8 percent due to an upward movement for onebedroom units while average imputed rentals for owner-occupied housing was stable. Water supply and miscellaneous services rose by 2.8 percent while electricity, gas and other fuels moved up by 1.1 percent.
- Communication: there was a 1.3 percent rise in this price index as all sub-groups registered at higher levels: telephone and telefax equipment ( $1.5 \%$ ), telephone and telefax services (1.3\%) and postal services (1.1\%).
- Restaurants and hotels: the index moved up on average by 0.7 percent following the uptick for catering services (1.1\%). Accommodation services showed an average price decline of 2.6 percent.
- Alcohol and tobacco: the index for this division moved upward by 0.3 percent due to alcohol price increases $(0.4 \%)$. Tobacco prices were stable on average.

Meanwhile, the following divisions declined in September 2014 compared to September 2013:

- Clothing and footwear: this divisional index was lower by 1.9 percent as both components moved down - clothing by 2.2 percent and footwear by 0.3 percent.
- Miscellaneous goods and services: this price index fell by 0.3 percent as a result of reduced prices for personal effects not elsewhere classified ( $-13.2 \%$ ), particularly some jewellery items. Average prices for other services also fell ( $-1.8 \%$ ). Both outweighed the 0.8 -percent increase for personal care.
- Health: there was a 0.5 percent decline in this division's price index largely which is traced to hospital ( $-1.1 \%$ ) and outpatient services ( $-1.0 \%$ ).

Meanwhile, the Education division price index was stable as average school fees were unchanged.

## Quarterly changes: September 2014 compared to June 2014

The following divisions were the main contributors to the 0.2 percent CPI increase over the second quarter:

- Housing and utilities: this index, which accounts for almost $2 / 5$ of the entire CPI basket, rose by 0.7 percent when compared to last quarter. Except for imputed rentals for owner-occupied housing which was stable, all other components had a quarterly upturn: maintenance and repair of dwelling ( $1.8 \%$ ), water supply and miscellaneous services ( $1.6 \%$ ), and electricity, gas and other fuels ( $1.1 \%$ ). Average actual rental for housing $(1.5 \%)$ was driven particularly by movements in rents for one-bedroom units.
- Food and non-alcoholic beverage: this recorded a 0.5 percent increase, contributed by a number of items led by milk, cheese and egg (3.8\%); meat and meat products (1.4\%), and vegetables $(1.1 \%)$. These were moderated by several price reductions such as mineral water, soft drinks, fruit and vegetable juices ( $-1.1 \%$ ); oils and fats ( $-0.9 \%$ ); fish and seafood ( $-0.7 \%$ ); and fruits ( $-0.6 \%$ )
- Household equipment and routine maintenance: the price index inched up by 0.4 percent, following the movements in household textiles (4.2\%); household appliances $(0.6 \%)$ and goods and services for routine household maintenance $(0.7 \%)$. The main contributor to the latter was the higher average cost of fumigation services.
- Alcohol and tobacco: this price index rose by 0.4 percent as a result of a price increase for alcohol (0.6\%).

The following divisions recorded declines in the indices compared to June 2014:

- Restaurants and hotels: the index moved downward by 1.7 percent as accommodation services recorded a significant average price drop ( $-12.4 \%$ ).
- Communication: this experienced a slight price fall of 0.2 percent which is traced to telephone and telefax services ( $-0.2 \%$ ).
- Miscellaneous goods and services: the index had a quarterly decline of 0.1 percent, resulting mainly from reduced insurance prices ( $-0.3 \%$ ).

Meanwhile, four (4) divisions showed no price changes over the previous quarter: Health, Transport, Recreation and Culture and Education.

## TABLE 5: AVERAGE PRICES OF SELECTED ITEMS Quarter Ending Sept 2014

Sept-13 June-14 Sept-14

| Loaf - Harddough | 2 lb | 3.64 | 3.94 | 3.94 |
| :---: | :---: | :---: | :---: | :---: |
| Long Grain Rice | 5 lb | 2.51 | 2.62 | 2.46 |
| Cornflakes (original) | 24 oz | 5.39 | 5.16 | 5.16 |
| Stew Beef | per lb | 4.04 | 4.78 | 4.84 |
| Bacon | 12 oz | 4.32 | 6.32 | 6.66 |
| Snapper Fillets (frozen) | per lb | 9.99 | 9.63 | 9.47 |
| Canned Tuna in water | 6 oz | 1.76 | 1.72 | 1.80 |
| Eggs (Grade A Large) | 1 doz | 2.64 | 2.99 | 3.12 |
| Margarine -Shedds Spread | 45 oz | 5.94 | 5.79 | 5.79 |
| Fresh Milk (McArthur - Regular Vitamin D) | 1 gal | 6.41 | 6.49 | 6.72 |
| Evaporated milk (Nestle Carnation) | 14 oz | 1.59 | 1.69 | 1.69 |
| Vegetable Oil | 24 oz | 4.26 | 4.66 | 4.66 |
| Plantain | per Ib | 0.98 | 1.04 | 1.01 |
| Potatoes - Irish | per lb | 1.16 | 0.96 | 1.09 |
| Lettuce - Iceburg | each | 2.35 | 2.11 | 2.30 |
| Sweet Potatoes | per lb | 2.48 | 2.66 | 2.67 |
| Tomatoes - Slicing | per lb | 2.91 | 2.81 | 2.68 |
| Bananas - Ripe | per lb | 0.92 | 0.93 | 0.93 |
| Apple - Golden Delicious | per lb | 2.48 | 2.46 | 2.47 |
| Grapes - Red Seedless | per lb | 3.08 | 4.06 | 4.02 |
| Tea (Lipton Decaffeinated) | 48 bags | 3.81 | 4.02 | 4.02 |
| Coffee - Instant -Classic Roast - Bottle | 8 oz | 6.72 | 6.76 | 6.86 |
| Soda | 12 oz | 0.78 | 0.78 | 0.78 |
| Sugar - Light Brown (Bag) | 2 lb | 2.09 | 2.09 | 2.09 |
| Corned Beef - regular | 340 g | 3.99 | 3.94 | 3.97 |
| lodized Salt | 26 oz | 0.91 | 1.02 | 0.92 |
| Petrol-Regular Full Service | per gal | 5.73 | 5.56 | 5.64 |
| Petrol - Premium Full Service | per gal | 5.84 | 5.67 | 5.77 |
| Diesel - Full Service | per gal | 5.76 | 5.72 | 5.71 |

## NOTES ON THE INDEX COMPILATION

## 1. Data collection

This report uses the 2008 CPI basket based on the results of the 2007 Survey of Living Conditions/Household Budget Survey (HBS) as updated in June 2008. The goods and services in the basket are classified into twelve (12) divisions using the United Nations' Classification of Individual Consumption According to Purpose (COICOP). In all, there are 1,393 items (7th-digit COICOP level) included in the basket collected from 147 providers/ outlets in Grand Cayman, classified as follows:
Number of Items in the 2008 CPI Basket
Division

| 1 | Food and non-alcoholic beverages | 47 |
| ---: | :--- | ---: |
| 2 | Alcoholic beverages and tobacco | 5 |
| 3 | Clothing and footwear | 13 |
| 4 | Housing, utilities and fuels | 6 |
| 5 | Furnishings, household equipment <br> and routine household maintenance. | 19 |
| 6 | Healt | 4 |
| 7 | Transport | 7 |
| 8 | Communication | 4 |
| 9 | Recreation and Culture | 6 |
| 1 | Education | 1 |
| 1 | Restaurants and hotels | 13 |
| 1 | Miscellaneous goods and services | 9 |
| Total |  | 1,393 |

ESO also adopted new collection periods and price averaging methodologies in accordance with updated international standards and as advised by the Caribbean Technical Assistance Centre (CARTAC). Beginning in the fourth quarter of 2009, price data for all items are collected every second month of the quarter (whereas they were previously collected every third month). Prices of selected items that are vulnerable to monthly changes such as vegetables and fruits, fish and meat, and gas are now also collected on a monthly basis. Prices across outlets are averaged using the geometric mean formula to reduce the impact of extreme or outlier prices (please see below).

## 2. CPI formula

The CPI is computed using Lowe's formula. The Lowe indices is one of the widest and popular class of price indices which is obtained by defining the index as the percentage change, between the periods
compared, in the total cost of purchasing a given set of quantities, generally described as a "basket". ${ }^{1}$ The Lowe index, PLo , is defined as follows ${ }^{2:}$

$$
P_{\mathrm{Lo}}=\sum_{i=1}^{n} p_{i}^{\prime} q_{i}^{\prime} \sum p_{i}^{0} q_{i}
$$

Where $n=$ number of products in the basket with prices $p_{i}$ and quantities $q_{i}$
$0=$ base period
$t=$ later period being compared

## Geometric mean

The price $p=[p 1, p 2, \ldots, p n]$ for each item from different outlets is the average of prices of the outlets using geometric mean or the formula:
$\mathrm{p}=\left(\prod_{i=1}^{n} p_{i}\right)^{1 / \mathrm{n}}=\sqrt[n]{\mathrm{p}_{1}, \mathrm{p}_{2}, \ldots, \mathrm{p}_{\mathrm{n}}}$

Inflation: this refers to the percentage change in the Consumer Price Index from one period to another. Typically, this period would be a year or a quarter.

Annual Inflation Rate: the percentage change of the CPI in the quarter under review over the CPI of the same quarter a year ago. This is also known as year-on-year inflation rate.

Quarterly Inflation Rate: the percentage change of the CPI in the quarter under review over the immediate previous quarter. This is also known as quarter-on-quarter inflation rate.
