(\% Change in CPI of Current Quarter over Same Quarter a Year Ago)

## Annual changes: June 2017 over June 2016

The 2.2 percent overall increase is mainly due to upward movements in the price indices for the following divisions:

- Restaurants and hotels: the price index rose by 7.9 percent. The cost of accommodation services rose on average by 14.5 percent, while that for catering services rose by 7.2 percent.
- Clothing and footwear: this index had a 5.9 percent upward move, as a result of a 6.4 percent increase in prices for clothing and a 3.5 percent increase in the prices for footwear.
- Housing and utilities: there was a 4.0 percent rise in this index, as electricity, gas, and other fuels went up by 8.6 percent, actual rentals for housing by 4.0 percent, imputed rentals for owner-occupied housing by 3.9 percent, and maintenance and repair of dwelling by 2.2 percent. However, water supply and miscellaneous services decreased by 1.6 percent.
- Communication: this division's index increased by 2.8 percent, as the average fees for postal services (including courier services) rose by 4.8 percent while the average cost of telephone and telefax services was higher by 2.8 percent. The telephone and telefax equipment index remained steady.
- Alcohol and tobacco: the index for this division moved upward by 2.6 percent. Tobacco prices increased by 6.4 percent while alcohol prices rose by 1.4 percent.
- Food and non-alcoholic beverages: this division's index increased by 2.4 percent. Average prices for milk, cheese, and egg along with fruits rose by 6.8 percent. Mineral water, soft drinks, fruit and vegetable juices went up by 5.0 percent; fish and seafood by 2.8 percent; oils and fats by 2.6 percent. However, there were decreases for bread and cereals by 1.0 percent; meat and meat products by 0.6 percent; and vegetables by 0.1 percent.
- Education: the index for the division moved up by 1.2 percent, due to an increase in the average cost of school fees for pre-primary and primary education by 2.0 percent and secondary education by 0.5 percent. Tertiary education recorded no movement in its index for the period under review.
- Recreation and culture: this division had an inflation rate of $\mathbf{1 . 0}$ percent. Recreational and cultural services rose by 5.4 percent; newspapers, books, and stationery by 1.6 percent; and audio-visual, photographic and information processing equipment by 1.2 percent. However, there was a decrease in other major durables for recreation and culture by 8.7 percent while other recreational items and equipment, gardens and pets recorded a 3.0 percent downward movement.
- Miscellaneous goods and services: there was a 0.9 percent rise in the index, mainly the result of an 8.7 percent increase in financial services (debit fees and check books). In addition, personal effects went up by 5.6 percent and social protection by 2.7 percent. Insurance fell by 0.3 percent mainly due to lower housing insurance premiums on average.
- Household equipment: the index moved upwards by 0.5 percent. Glassware, tableware and household utensils had a significant increase of 10.2 percent as compared to 12 months ago. The average prices for household appliances rose by 4.6 percent and goods and services for routine household maintenance fell by 0.4 percent.

Meanwhile, the following divisions recorded decreases in June 2017 compared to June 2016:

- Transport: the index for this division fell by 3.1 percent. Transport services showed a decline of 12.3 percent mainly due to reduced average air fares. However, operations of personal transport equipment recorded higher prices by 2.6 percent as a result of higher cost of fuel and repairs.
- Health: there was a 0.5 percent decline in this division's price index largely traced to prices for medical products, appliances, and equipment which declined by 2.4 percent. Outpatient services and hospital services showed no price movement.

## Quarterly changes: June 2017 compared to March 2017

The following divisions were the main contributors to the 0.5 percent decrease in the CPI for the second quarter of 2017 relative to the first quarter:

- Transport: this index decreased by 4.9 percent as the average price of transport services (mainly air fares) moved down by 12.4 percent. Operations of personal transport equipment fell by 0.6 percent, traced mainly to price reductions for fuel and repairs. However, the average purchase of vehicle price rose by 0.6 percent.
- Restaurants and hotels: this price index dropped by 4.1 percent. There was a significant price decrease for accommodation services by 33.0 percent possibly in response to the seasonal downtrend in demand. In contrast, prices of catering services grew by 1.4 percent on average.
- Housing and utilities: this index fell by 0.2 percent. Actual rentals for housing fell by 0.9 percent along with electricity, gas and other fuels by 0.7 percent. The cost of maintenance and minor repair of dwellings moved up by 0.4 percent.
- Health: the index declined by 0.2 percent, due to the decrease in the average prices of medical products, appliances, and equipment by 0.9 percent. The price index for both outpatient services and hospital services were stable.

The following divisions recorded increases in their indices when compared to the quarter ending March 2017:

- Clothing and footwear: this division's quarterly inflation of $\mathbf{1 . 3}$ percent is traced to price increases for clothing $(1.8 \%)$ as footwear posted a price decline of 1.9 percent.
- Alcohol and tobacco: the index for this division grew by $\mathbf{1 . 0}$ percent as a result of an increase of 3.9 percent in tobacco and 0.1 percent rise in prices of alcoholic beverages.
- Miscellaneous goods and services: this index rose by 0.8 percent mainly due to the 6.1 percent increase in the average price for personal effects such as jewelry and handbags.
- Recreation and culture: this division's index was higher by 0.7 percent. The average prices of recreational and cultural services such as swimming lessons rose by 2.2 percent. However, there was a downward movement in other major durables for recreation and culture of 8.7 percent while newspapers, books, and stationery fell by 1.2 percent.
- Food and non-alcoholic beverages: the index had an increase 0.6 percent for the quarter. Higher prices were recorded for vegetables (3.3\%); oils and fats ( $2.5 \%$ ); and meat and meat products ( $1.7 \%$ ).
- Household equipment: the index moved upwards by 0.4 percent. All groups exhibited price increases except for glassware, tableware and household utensils which decreased by 0.6 percent.

Meanwhile, the second quarter indices for the divisions Communication and Education remained the same as in the first quarter.

## NOTES ON THE INDEX COMPILATION

## 1. Data collection

This report uses the 2008 CPI basket based on the results of the 2007 Survey of Living Conditions/Household Budget Survey (HBS) as updated in June 2008. The goods and services in the basket are classified into twelve (12) divisions using the United Nations' Classification of Individual Consumption According to Purpose (COICOP). In all, there are 1,393 items (7th-digit COICOP level) included in the basket collected from 147 providers/ outlets in Grand Cayman, classified as follows:
Number of Items in the 2008 CPI Basket
Division

| 1 | Food and non-alcoholic beverages | 47 |
| ---: | :--- | ---: |
| 2 | Alcoholic beverages and tobacco | 5 |
| 3 | Clothing and footwear | 13 |
| 4 | Housing, utilities and fuels | 6 |
| 5 | Furnishings, hosehold <br> and routine household maintenance. | equipment |
| 6 | Healt | 49 |
| 7 | Transport | 7 |
| 8 | Communication | 4 |
| 9 | Recreation and Culture | 6 |
| 1 | Education | 1 |
| 1 | Restaurants and hotels | 13 |
| 1 | Miscellaneous goods and services | 9 |
| Total |  | 1,393 |

ESO also adopted new collection periods and price averaging methodologies in accordance with updated international standards and as advised by the Caribbean Technical Assistance Centre (CARTAC). Beginning in the fourth quarter of 2009, price data for all items are collected every second month of the quarter (whereas they were previously collected every third month). Prices of selected items that are vulnerable to monthly changes such as vegetables and fruits, fish and meat, and gas are now also collected on a monthly basis. Prices across outlets are averaged using the geometric mean formula to reduce the impact of extreme or outlier prices (please see below).

## 2. CPI formula

The CPI is computed using Lowe's formula. The Lowe indices is one of the widest and popular class of price indices which is obtained by defining the index as the percentage change, between the periods compared, in the total cost of purchasing a given set of quantities, generally described as a "basket". ${ }^{1}$ The Lowe index, PLo , is defined as follows ${ }^{2 \text { : }}$

[^0]$\mathrm{P}_{\mathrm{Lo}}=\sum_{i=1}^{n} p_{i}^{t} q_{i}^{\prime} \sum p_{i}^{0} q_{i}$

Where $\mathrm{n}=$ number of products in the basket with prices $\mathrm{p}_{\mathrm{i}}$ and quantities $\mathrm{q}_{\mathrm{i}}$
$0=$ base period
$t=$ later period being compared

## Geometric mean

The price $p=[p 1, p 2, \ldots, p n]$ for each item from different outlets is the average of prices of the outlets using geometric mean or the formula:
$\mathrm{p}=\left(\prod_{i=1}^{n} p_{i}\right)^{1 / \mathrm{n}}=\sqrt[n]{\mathrm{p}_{1}, \mathrm{p}_{2}, \ldots, \mathrm{p}_{\mathrm{n}}}$

Inflation: this refers to the percentage change in the Consumer Price Index from one period to another. Typically, this period would be a year or a quarter.

Annual Inflation Rate: the percentage change of the CPI in the quarter under review over the CPI of the same quarter a year ago. This is also known as year-on-year inflation rate.

Quarterly Inflation Rate: the percentage change of the CPI in the quarter under review over the immediate previous quarter. This is also known as quarter-on-quarter inflation rate.
