1. About the Publication Scheme

The Economics & Statistics Office (ESO) is covered by the Freedom of Information Law and has a legal duty to maintain a publication scheme.

The purpose of a publication scheme is to make information readily available to the public without the need for specific written requests. Schemes are intended to encourage authorities to proactively publish information, to develop a culture of openness and participation.

The publication scheme lists the information, which is readily available to the public. The list is divided into seven (7) different categories of information to help you find the documents you are looking for.

This publication scheme commits the ESO to making information available to the public as part of its normal business activities.

The ESO will:

- specify the information held by the office, which falls within the above-mentioned seven (7) categories;
- proactively publish or otherwise make routinely available information held by the office that falls within the above-mentioned categories;
- describe the methods by which specific information is made available, so that it can be easily identified and accessed by members of the public;
- list any fees charged for access to information described in this scheme;
- publish or otherwise make information available, in accordance with the methods and fees stated in this scheme;
- make this publication scheme available to the public; and
- regularly review and update the information made available under this scheme.

2. Information that may be withheld

The ESO will generally not publish:

- information in draft form;
- information that is not held by the ESO, or which has been disposed of in accordance with a legally authorised disposal schedule;
- information that is not readily-available – for example: information that is contained in files that have been placed in archive storage, or is otherwise difficult to access;
- information that is exempt under the FOI Law, or otherwise protected from disclosure – for example: personal information or commercially sensitive information.
- Questionnaires and information identifiable to any individual or business in accordance with Sections 8 and 17 of the Statistics Law (2016 Revision).
- Other records containing exempt matter unless in a redacted¹ form, where ever it is practical to do so, indicating which exemptions apply.

In maintaining this publication scheme, our aim is to be as open as possible. However, ESO records are exempt from disclosure in the following instance where such disclosure:

- is not in accordance with the Statistics Law (2016 Revision) ;
- constitutes an actionable breach of confidence, for example an opinion, advice or recommendations prepared for another party;
- is premature and could reasonably be expected to or have substantial adverse effect on the Caymanian economy or the Government's ability to manage the economy;
- is an opinion, report, advice or recommendation prepared for Cabinet;
- prejudice, or would be likely to prejudice, the effective conduct of public affairs;
- reveal trade secrets, information of commercial value and interests prejudiced or diminished by disclosure; and
- unreasonable exposure of personal information, whether living or dead.

¹ A copy of the record, with the exempt matter deleted in accordance with the National Archive's *Redaction Standard*.

Whenever information is withheld, we will inform you of this and explain why that information cannot be released. Part III of the FOI Law lists the exemptions to the general right of access to records. These records will only be withheld where the FOI Law expressly permits it.

Information provided to the Economics and Statistics Office is protected by section 8(1A) of the Statistics Law (2016 Revision) which provides that, “individual data collected by the Economics and Statistics Office for statistical compilation, whether they refer to legal or natural persons, are strictly confidential and shall be used exclusively for statistical purposes and the Freedom of Information (2015 Revision) does not apply to any such individual data”.

A copy of the Statistics Law (2016 Revisions) is available from the ESO website:

STRATEGIC MANAGEMENT

The Cayman Islands' Economics and Statistics Office (ESO) provides basic information on the country's people and economy, and is the official national statistics office.

Vision. We envision the Cayman Islands to be on par with other countries having official statistics and economic monitoring systems that are responsive to local needs and compliant with international standards. The latter primarily refer to those of the United Nations (UN) Statistical Commission and the International Monetary Fund's General Data Dissemination System.

Mission. ESO's mission is to facilitate decision-making in the public and private sectors by providing relevant, reliable, timely and user-friendly statistics and economic analysis.

Our general strategies for implementing our mission include:

- Adhering to legal mandates, primarily the Statistics Law (2016 Revision);
- Developing new statistics based on local needs and according to international standards;
- Building internal human and statistical resources;
- Promoting community ownership through outreach programs and wider public access to information such as through our website www.eso.ky;
- Coordinating with local producers of statistics in promoting the development of a national statistical system underpinned by good statistical practices; and

- Networking with regional and international statistical bodies and economic organizations.
