## THE CAYMAN ISLANDS' CONSUMER PRICE INDEX REPORT: JANUARY TO MARCH 2021

Date of Publication: May 14, 2021

The Inflation Rate for March 2021 over March 2020 was -1.0\%

The CPI in the first quarter of 2021 was $\mathbf{1 1 0 . 3}$, lower by 1.0 percent compared to the first quarter of 2020. However, nine of the twelve divisions recorded higher price indices.

Figure 1: Inflation Rates, March 2017 - March 2021
(\% Change in CPI of Current Quarter over Same Quarter a Year Ago)

Figure 2: Inflation Rates, March 2020-March 2021 by Major Types of Goods and Services (\% Change in CPI of Current Quarter over Same Quarter a Year Ago)

The decline in the first quarter CPI is mainly traced to the following divisions:

- Housing and Utilities: this division showed a 5.1 percent decline as the cost of electricity had a 8.5 percent decrease. The cost of water supply also fell by 6.4 percent compared to the same period in 2020. Imputed rentals for owner-occupiers fell by 4.6 percent and actual rentals paid by tenants fell by 4.2 percent. The average prices for gas (LPG/Propane) also fell by 3.2 percent.
- Transport: the index for this division had a 1.7 percent fall due to a significant decline in the average cost of fuels (13.3\%) while the cost of passenger transport by road decreased by 10.1 percent. The index for the purchase of motor vehicles also fell, but by 7.0 percent. The index for other services in respect of personal transport equipment declined by 5.3 percent.
- Recreation and Culture: this division showed a 0.9 percent decline as the cost of recreation and recording equipment and package holidays each had a 16.0 percent and 12.0 percent decrease, respectively. The costs associated with pets and related products fell by 1.8 percent compared to the same period in 2020. The average prices for cultural services also fell by 0.5 percent. The prices of books fell by 0.2 percent.

There were increases in the index for the other nine divisions and that moderated the impact of these declines as they represent some of the divisions with the largest weights in the 'basket' of consumer goods and services.

- Miscellaneous Goods and Services: this price index was 5.0 percent higher compared to a year ago. The average prices for other financial services rose by 30.3 percent. Vehicle insurance and social protection, respectively, went up by 16.9 percent and 6.6 percent. The average prices for health insurance also increased by 5.2 percent.
- Food \& Non-Alcoholic Beverages: the division showed a 4.6 percent increase as the average prices of milk, cheese, and eggs and fruits rose by 11.5 percent and 10.9 percent compared to the same period in 2020. The average prices for meat and meat products increased by 8.8 percent. Oils and fats went up by 3.8 percent. Mineral waters, soft drinks, fruit, and vegetable juices moved upward by 3.2 percent.
- Health: there was a 4.5 percent rise in the index for this division, traced mainly to the uptrend for pharmaceutical products, which increased by 13.6 percent. However, there were declines in the cost of other medicinal products and therapeutic appliances and equipment as they recorded a 2.1 percent and 0.4 percent fall, respectively.
- Communication: this division showed a 2.6 percent increase as the cost of telephone and telefax equipment rose by 8.0 percent compared to the same period in 2020. The average prices for telephone and telefax services also rose by 2.0 percent.

Figure 9: Communication - Telephone and Telefax Services

$\square$ Communication $\square$ Equipment For The Reception $\square$ Telephone and Telefax Equipment $■$ Telephone and Telefax Services

- Clothing and Footwear: the division showed a 2.0 percent increase as the cost of footwear and clothing purchased locally rose by 4.6 percent and 3.6 percent, respectively when compared to the same period in 2020. The average prices for footwear purchased abroad also increased by 0.3 percent. However, the index for clothing purchased abroad fell by 0.7 percent.
- Education: this division's price index increased by 1.1 percent. The average cost for pre-primary and primary education moved up by 5.3 percent and secondary education by 0.4 percent. However, the prices for education not definable by level decreased by 12.1 percent and tertiary education by 5.0 percent.
- Restaurants and Hotels: the index for this division recorded a 1.0 percent incline due to a 2.2 percent price increase for the services obtained from restaurants, cafes, and the like. Accommodation services offered both locally and abroad had a 5.1 percent fall in the cost. Meals from canteens at educational establishments or work also fell by 1.1 percent.
- Household Furnishings and

Equipment: this division's price index increased by 0.8 percent. The average cost for small electrical appliances moved up by 29.6 percent, small tools and miscellaneous accessories by 6.4 percent, major household appliances by 6.0 percent, and nondurable household goods up by 3.0 percent.

## Quarterly changes: March 2021 compared to December 2020

The CPI fell by 1.7 percent compared to the fourth quarter of 2020, with the following divisions recording declines in their indices:

- Housing and Utilities: there was a 5.7 percent decrease in the index for this division, traced mainly to the 7.5 percent fall in imputed rentals for owner-occupiers and a 5.1 percent fall for actual rentals paid by tenants. There was also a 4.6 percent decrease in the cost of water supply and a 1.7 percent fall in electricity costs. In comparison, gas (LPG/propane) fell by 1.1 percent.
- Education: there was a $\mathbf{1 . 3}$ percent decrease in the index for this division, traced mainly to the index for tertiary education, which fell by 7.4 percent. However, the indices for the other groups were unchanged.
- Furnishings, Household Equipment, and Routine Household Maintenance: there was a 0.8 percent decline in this division's index traced mainly to employed staff (paid staff privately employed), which had a 9.2 percent reduction and household textile by 3.7 percent. However, there were increases in the index for furniture and furnishings up by 3.5 percent, glassware, tableware, and household utensils up by 1.9 percent, small tools and miscellaneous accessories up by 1.8 percent, major household appliances up by 0.4 percent and small electric household appliances up by 0.4 percent, all of which moderated the effect of the declines.
- Alcoholic Beverages and Tobacco: there was a 0.2 percent decline in the index for this division as the average prices for tobacco and beer fell by 1.6 and 0.5 percent, respectively. However, the average price for wine rose by 0.7 percent and spirits and alcoholic cordials increased by 0.4 percent.

The following divisions recorded upward movements in their indices when compared to the quarter ending December 2020:

- Health: there was a 3.1 percent increase in the index for this division, traced mainly to a 9.1 percent rise in the index for pharmaceutical products. Other medicinal products and therapeutic appliances and equipment each declined by 0.4 percent. The index for the remaining groups that make up this division recorded no movements.
- Recreation and Culture: this index posted a 1.9 percent rise. The primary contributors were the 14.3 percent increase in the index for package holidays (abroad) and the 3.1 percent upward movement in the index for major durables for outdoor recreation, as well as a 5.2 percent incline in the index for equipment for sport, camping, and open-air recreation. Gardens, plants, and flowers also rose by 2.2 percent. Recording media (audiovisual, media) recorded a 1.1 percent increase. These increases were tempered by reduced prices for reception and recording equipment ($8.5 \%)$, recreation and sporting services ( $-0.5 \%$ ), and cultural services ( $-0.5 \%$ ). The other groups that make up this division had little or no average price movements.
- Restaurants and Hotels: this index posted a 1.2 percent increase. This movement was mainly the result of a 6.1 percent incline in the index for accommodation services (local and abroad). Restaurants, cafes, and the like showed an average price increase of 0.7 percent. Meanwhile, the index for canteens at educational establishments or work rose by 0.4 percent.
- Clothing and Footwear: the index had a rise of $\mathbf{1 . 1}$ percent for the quarter. The prices for footwear purchased locally increased by 6.8 percent. Clothing purchased locally rose by 1.2 percent. However, footwear purchased abroad also rose but by 0.4 percent. Clothing purchased abroad, however, fell by 0.7 percent.
- Communication: the index moved up significantly by 0.6 percent for the quarter. Prices of telephone and telefax services rose by 0.7 percent. Telephone and telefax equipment declined by 0.7 percent.
- Miscellaneous Goods and Services: there was a 0.5 percent incline in this division's index traced mainly to housing content insurance, which had a 4.3 percent increase. The index for health insurance rose by 2.0 percent and vehicle insurance by 1.6 percent. There were also increases in the index for social protection up by 1.4 percent and other services not elsewhere classified up by 1.0 percent. The index for other personal effects fell by 4.7 percent, other appliances, articles, and products for personal care declined by 2.9 percent, and jewellery and watches had a 2.5 percent reduction in their prices.
- Food \& Non-Alcoholic Beverages: an increase of 0.5 percent was recorded for this division's price index. There was a 5.0 percent rise in the cost of milk, cheese, and eggs, a 4.2 percent increase in average prices for vegetables, and a 2.0 percent incline for meat and meat products. The 6.9 percent decline in oils and fats, 2.3 percent fall in prices for mineral waters, soft drinks, fruit and vegetable juices, and 0.9 percent in other food products (not elsewhere specified) all served to moderate the effect of the price increases aforementioned.
- Transport: the index moved down slightly to reflect a 0.0 percent movement. The most notable price reductions were seen in passenger transport by air (-1.5\%), passenger transport by road ($1.5 \%$ ), and spare parts and accessories for personal transport equipment down by a similar 1.5 percent. However, there were price increases in the index for the purchase of motor vehicles (1.5\%), fuels ( $0.5 \%$ ), maintenance and repair of personal transport equipment ( $0.2 \%$ ), and other services in respect of personal transport equipment by 1.0 percent.

## NOTES ON THE INDEX COMPILATION

## 1. CPI Revision

The report includes revision in the CPI estimate as follow:
Revised Indices March 2021

|  | Quarter <br> Ending |  | INDEX <br> Year |  |
| :---: | :---: | :---: | :---: | :---: |
| 2020 | December |  |  |  |
|  |  | All items | 112.2 | 112.2 |
|  |  | Miscellaneous good and services | 105.7 | 105.9 |
|  |  | Financial Services n.e.c | 123.2 | 125.4 |

## 2. Data collection

This report uses the 2016 CPI basket based on the results of the 2015 Household Budget Survey (HBS) as updated between August 2016 and August 2017. The goods and services in the basket are classified into twelve (12) divisions using the United Nations' Classification of Individual Consumption According to Purpose (COICOP). In all, there are 2,227 items (7thdigit COICOP level) included in the basket collected from 203 providers/outlets in Grand Cayman, compared to 2008 when there were 1,647 items collected from 147 providers/outlets. The items are classified as follows:

## MLESO

CONSUMER PRICE REPORT JANUARY TO MARCH 2021
Summary Table: Number of Items and Weights for the CPI Baskets of 2008 and 2016

|  | 2008 |  | 2016 |  |
| :--- | :---: | :---: | :---: | :---: |
|  | Number of <br> Items | Weights | Number of <br> Items | Weights |
| Total | $\mathbf{1 , 6 4 7}$ | $\mathbf{1 , 0 0 0}$ | $\mathbf{2 , 2 2 7}$ | $\mathbf{1 , 0 0 0}$ |
| 01. Food \& Non Alcoholic Beverage | 540 | 79.6 | 551 | 66.1 |
| 02. Alcohol and Tobacco | 66 | 6.5 | 153 | 22.3 |
| 03. Clothing and Footwear | 153 | 34.3 | 273 | 33.3 |
| 04. Housing and Utilities | 59 | 394.4 | 153 | 334.5 |
| 05. Household Equipment | 212 | 56.4 | 316 | 42.7 |
| 06. Health | 111 | 24.2 | 124 | 20.9 |
| 07. Transport | 107 | 96.1 | 198 | 162.0 |
| 08. Communication | 62 | 69.7 | 40 | 39.1 |
| 09. Recreation and Culture | 75 | 40.5 | 94 | 59.2 |
| 10. Education | 18 | 27.9 | 46 | 38.2 |
| 11. Restaurants and Hotels | 57 | 40.2 | 103 | 83.5 |
| 12. Miscellaneous Goods and Services | 187 | 130.2 | 176 | 98.2 |

All price indices for goods and services purchased abroad were taken from price indices published by the US Bureau of Labour Statistics.

ESO collection periods and price averaging methodologies follow updated international standards, in particular the Consumer Price Index Manual: Theory and Practice (August 2004) published by the International Labour Organization (ILO). Prices of selected items are collected every second month of the quarter. Vulnerable items which change monthly, such as vegetables and fruits, fish and meat, and gas are collected on a monthly basis. Prices across outlets are averaged using the geometric mean formula to reduce the impact of extreme or outlier prices (please see below).

## 3. CPI formula

The CPI is computed using Lowe's formula. The Lowe indices is one of the widest and popular class of price indices which is obtained by defining the index as the percentage change, between the periods compared, in the total cost of purchasing a given set of quantities, generally described as a "basket". ${ }^{1}$ The Lowe index, PLo , is defined as follows²:

[^2]
## $\mathrm{P}_{\mathrm{Lo}}=\sum_{i=1}^{n} p_{i}^{t} q_{i} / \sum p_{i}^{0} q_{i}$

Where $\mathrm{n}=$ number of products in the basket with prices $\mathrm{p}_{\mathrm{i}}$ and quantities $\mathrm{q}_{\mathrm{i}}$
$0=$ base period
$t=$ later period being compared

## Geometric mean

The price $p=[p 1, p 2, \ldots, p n]$ for each item from different outlets is the average of prices of the outlets using geometric mean or the formula:
$\mathrm{p}=\left(\prod_{i=1}^{n} p_{i}\right)^{1 / \mathrm{n}}=\sqrt[n]{\mathrm{p}_{1}, \mathrm{p}_{2}, \ldots, \mathrm{p}_{\mathrm{n}}}$

Inflation: this refers to the percentage change in the Consumer Price Index from one period to another. Typically, this period would be a year or a quarter.

Annual Inflation Rate: the percentage change of the CPI in the quarter under review over the CPI of the same quarter a year ago. This is also known as year-on-year inflation rate.

Quarterly Inflation Rate: the percentage change of the CPI in the quarter under review over the immediate previous quarter. This is also known as quarter-on-quarter inflation rate.

[^0]:    * The CPI series from 2013 to June 2016 were re-based to September 2016.
