**Notes:**

\* End of year estimate includes Grand Cayman (post Hurricane Ivan) and Cayman Brac estimate. The drop in population level is related to the temporary relocation of residents abroad in the aftermath of Hurricane Ivan.

\*\* The sharp increase in population is related to the return of residents who left after Ivan, and the increase in the labour force needed for the reconstruction of the country.

During 2002 to 2004 a large number of persons was granted Caymanian Status.

**Note:**

1. The numbers 12-8-28 for example are the N-P-K ratios of the fertilizer, that is the proportion of Nitrogen (N), Phosphorous (P) and Potassium (K) contained in a blended fertilizer.
2. 12-8-28 is Multi-purpose fertilizer used in agriculture and horticulture that has been formulated to suit Cayman Islands' soil nutrient profiles that are consistently low in available Potassium (K)
3. The Department switched from 12-8-28 to 12-6-24 in the latter half of 2008 to reduce cost in the face of skyrocketing prices of fertilizer driven by historically high oil prices
4. In 2010 as part of efforts to further reduce costs the DoA split purchases between two suppliers, one of whom supplied a 12-8-24 product. This enabled the use of competitive market forces to negotiate lower prices from the two suppliers.
5. Ammonium Nitrate fertilizer is no longer available as current US port security and shipping regulations prohibit the export of this fertilizer due to its potential explosive properties. The small quantity sold in 2006 represented the remaining inventory that was imported prior to the introduction of the current US regulations.
6. The Rescue Organic Fertilizers were introduced in 2008. In 2010 DoA ceased imports of these products in deference to a private sector company that took up the product line.
7. Sales in 2011 represented sales of remaining inventory after importation ceased.
8. The introduction of protected agriculture (tropical shade houses) in 2009 and subsequent expansion in 2010 necessitated the importation and sale of a range of specialized fertilizers shown at the bottom of the table.
