**Notes:**

* End of year estimate includes Grand Cayman (post Hurricane Ivan) and Cayman Brac estimate. The drop in population level is related to the temporary relocation of residents abroad in the aftermath of Hurricane Ivan.

** The sharp increase in population is related to the return of residents who left after Ivan, and the increase in the labour force needed for the reconstruction of the country.

During 2002 to 2004 a large number of persons was granted Caymanian Status.

**Notes:**

Real GDP data up to the new base year (i.e.2006-2014) is non-additive due to the process by which the rebased (2015) series was linked to the old (2007 base) series. The pre base year series was derived by extrapolating the 2015 GDP backward at the most detailed compilation level using the growth rates of GDP from the old series. The advantage of this approach is to preserve the growth rates from the old series thereby ensuring there is no revision of the historical growth rates. The non-additivity of GDP and its components is the disadvantage of this approach but is less significant than having to revise the historical growth rates every time the GDP is rebased.

**Note:**

1. The numbers 12-8-28 for example are the N-P-K ratios of the fertilizer, that is the proportion of Nitrogen (N), Phosphorous (P) and Potassium (K) contained in a blended fertilizer.
2. 12-8-28 is Multi-purpose fertilizer used in agriculture and horticulture that has been formulated to suit Cayman Islands' soil nutrient profiles that are consistently low in available Potassium (K)
3. The Department switched from 12-8-28 to 12-6-24 in the latter half of 2008 to reduce cost in the face of skyrocketing prices of fertilizer driven by historically high oil prices
4. In 2010 as part of efforts to further reduce costs the DoA split purchases between two suppliers, one of whom supplied a 12-8-24 product. This enabled the use of competitive market forces to negotiate lower prices form the two suppliers.
5. Ammonium Nitrate fertilizer is no longer available as current US port security and shipping regulations prohibit the export of this fertilizer due to its potential explosive properties. The small quantity sold in 2006 represented the remaining inventory that was imported prior to the introduction of the ceased imports of these products in deference to a private sector company that took up the product line.
6. Sales in 2011 represented sales of remaining inventory after importation ceased.
7. The introduction of protected agriculture (tropical shade houses) in 2009 and subsequent expansion in 2010 necessitated the importation and sale of a range of specialized fertilizers shown at the bottom of the table.
