Notes:

* End of year estimate includes Grand Cayman (post Hurricane Ivan) and Cayman Brac estimate. The drop in population level is related to the temporary relocation of residents abroad in the aftermath of Hurricane Ivan.

** The sharp increase in population is related to the return of residents who left after Ivan, and the increase in the labour force needed for the reconstruction of the country.

During 2002 to 2004 a large number of persons was granted Caymanian Status.

Notes:

Real GDP data up to the new base year (i.e.2006-2014) is non-additive due to the process by which the rebased (2015) series was linked to the old (2007 base) series. The pre base year series was derived by extrapolating the 2015 GDP backward at the most detailed compilation level using the growth rates of GDP from the old series. The advantage of this approach is to preserve the growth rates from the old series thereby ensuring there is no revision of the historical growth rates. The non-additivity of GDP and its components is the disadvantage of this approach but is less significant than having to revise the historical growth rates every time the GDP is rebased.

*Data does not include fertilizer sales by nurseries, garden centers or private sector retailers

Notes:

1. The numbers 12-8-28 for example are the N-P-K ratios of the fertilizer, that is the proportion of Nitrogen (N), Phosphorous (P) and Potassium (K) contained in a blended fertilizer.
2. 12-8-28 is Multi-purpose fertilizer used in agriculture and horticulture that has been formulated to suit Cayman Islands' soil nutrient profiles that are consistently low in available Potassium (K)
3. In 2010 as part of efforts to further reduce costs the DoA split purchases between two suppliers, one of whom supplied a 12-8-24 product. This enabled the use of competitive market forces to negotiate lower prices from the two suppliers.
4. The introduction of protected agriculture (tropical shade houses) in 2009 and subsequent expansion in 2010 necessitated the importation and sale of a range of specialized fertilizers shown at the bottom of the table. This information was omitted from the 2009 report.
5. Urea was added to inventory in 2014
6. Soluble Fertilizer Blend 14-7-28+2 was replaced in 2014 by 14-5-28+2 due to changes by manufacturers
7. 8-52-17 added to inventory in 2017
- 8 12-8-24 was discontinued due to formulation challenges.

14.10 Farmer Registration by District

District	Number of Registered Farmers ¹
Total	302
George Town	40
West Bay	32
Bodden Town	93
North Side	40
East End	81
Cayman Brac	16

Note:

¹ The Table indicates the number of persons registered as farmers between 1998 & 2007 and excludes those deceased or confirmed out of farming.

The existing Farmers Registration Programme is currently undergoing a comprehensive review to create a new Agricultural Sector Registration Programme. This will more accurately capture and categorize all those persons involved in agricultural related enterprises, many of whom presently fall outside of the current registration programme.

1. Potable Water is now being assessed on Grand Cayman by field testing for free chlorine. This figure represents the samples collected or received by the lab for microbiological analysis but does not reflect the number of locations checked by the Environmental Health

2. Increased number of samples reflect increased testing requests by the HSA clinics on Grand Cayman and Cayman Brac related to satisfying accreditation requirements as well as opening a new clinic.

3. Increased sample requests from clients for quality assurance purposes.

4. There has been a significant reduction of samples submitted by the Solid Waste Section; this is in part due the fact that rather than 55-gallon drums, the oil is consolidated into 250-gallon totes before sampling.
